TYPE NO. 30-S

A STURDY, FAST-ACTION, STOP-TYPE KEYLESS PADLOCK THAT STANDS HARD USE AND ABUSE AND STILL PROVIDES SECURITY

The Gougler No. 30-S padlock is constructed with the "fast-action touch-click" combination starting from a positive stop. It's not necessary to see the dial to open the lock — just count the "clicks." Fully automatic, locks securely when the shackle is closed.

If desired, padlocks can be supplied with all combinations alike.
